Labor Leader Says "Strike Will Be War to Finish."

YOUNGSTOWN, Sept. 22. — That practically every steel mill, except those at Warren, in the Youngstown district, extending from Sharon to Warren, is paralyzed by reason of the general strike of steel workers which went into effect today, is admitted by heads of the plants, who have been in constant touch with the situation since early this morning.

The tie-up can be attributed to the common laborers refusing to go to work, it is said at the plant. Of these the majority are foreigners. There are about 40,000 men employed in the steel mills in Youngstown alone and it is estimated by heads of the mills that from 85 to 90 percent are on strike.

YOUNGSTOWN, Sept. 22.—Pickets are on duty at every steel plant in the Youngstown area as the nationwide steel strike goes into effect. The picketing at each Youngstown plant was orderly and as the men went to work they were quietly admonished and their names were taken by the union pickets.

It is said that less men went to work at the plant of the Republic Iron and Steel company than at any of the others, this being the best organized of the non-union plants of the Mahoning and Shenango district. Police have been stationed at each of the entrances to the steel plants and 200 soldiers, who served in the world war and who are members of the American Legion, were sworn in by Police Chief Watkins to aid the police in maintaining order. None of the soldier-pickets were needed when the plants opened.

When the night shift left the plants Continued on Page Two.

### POLICE DOG IS SHOT MONDAY

Unidentified Person Attempts to Kill "Turk," McDermott's Airedle.

"Turk," Chief of Police Hugh McDermott's Airedale police dog, was shot by an unidentified person, Monday morning shortly after 8 o'clock in an alley near the McDermott residence, College street. The bullet, believed to have been fired from a rifle by someone concealed in a window fronting the alley, pierced the animal's right side and emerged from his breast. The wound will not prove fatal, Chief McDermott said.

That the animal was shot by a person at a distance is the belief of Chief McDermott.

"If Turk had seen the weapon," the chief declared, "nothing could have saved the man's life."

The dog was shot while taking his morning jaunt down the alley. After the shooting he ran back to the McDermott home where his wound was dressed. Workers in the K. T. and K. pottery nearby did not hear the shot, but were attracted by the dog's howl of pain.

### Definite Figures on Success or Failure Impossible to Obtain Because of Area Covered and Gigantic Scope of Strike—Both Sides Optimistic Concerning Situation.

## BULLETIN

PITTSBURG, Sept. 22.—William Z. Foster, secretary of the steel strikers' national committee, gave out figures at strike headquarters here today, asserting that 269,000 steel workers throughout the country went on strike today.

Foster's figures were as follows: Johnstown, Pa., 15,000; Homestead, Pa., 9,000; Braddock, Pa., 5,000; Rankin, Pa., 3,000; Clairton, Pa., 4,000; Monessen and Donora, Pa., 12,000; Wheeling, W. Va., 15,000; Steubenville, O., 6,000; Pueblo, Colo., 6,000; Coatesville, Pa., 4,000; McKeesport, Pa., and Duquesne, Pa., 12,000; Pittsburg, Pa., 15,000; Vandegrift, Pa., 4,000; Leeburg, Pa., 2,000; Brackenridge, Pa., 5,000.

By GEO. R. HOLMES

PITTSBURG, Sept. 22.—The big steel strike broke quietly over the United States today.

From the Rockies to the Alleghenies, the big mills which form the nation's greatest industry continued operation with crippled forces.

A few plants were closed down completely. Others continued operating fully, feeling little or no effect of the walkout order. Still others started operations with partial forces.

So vast was the area covered and gigantic the scope of the strike that definite figures on its success or failure were practically impossible to obtain.

In the Pittsburgh district which includes all that territory from Johnstown, Pa., to Youngstown, O., and forms the cockpit for the great national struggle, early reports were that approximately 25 per cent of the employees as a whole had refused to go to work this morning.

### Blast Furnaces are Hit

Both sides, as usual, expressed optimism concerning the situation and declared their belief the ultimate showdown will be favorable to them.

The officials of the United States Steel corporation asserted that practically every plant operated by the corporation in this district was in operation this morning and unless unforeseen developments occurred would continue operation. A few of the blast furnaces, in which the labor is mostly foreign, were closed down, but as a whole, it was stated the strike was having no effect.

W. Z. Foster, secretary and treasurer of the national committee, who is conducting labor's end of the fray from here, said:

"Early reports show that many of the plants have closed down completely. In others the employers are making a pretense of keeping open, with steam up and wheels moving. But we know that few men are working. The shutdown is better than we anticipated, considering all the difficulties we have had to contend with. We probably will not know until tomorrow morning just how complete the strike is. Everything is at present more than satisfactory."

### Many Deputies Guard Plants

From a steel official who requested that his name be withheld, came this statement:

"We are in far better shape today than we really expected to be. Practically all the plants are operating. In some cases only certain departments are running, and a number of blast furnaces are closed. This is mostly because foreign labor is employed at the furnaces and the foreigners constitute the majority of the organized men."

It was a source of satisfaction to both sides that the big strike was ushered in with comparative quiet and no disorder.

Literally thousands of deputy-pickets, deputy-sheriffs and state constables, many of them mounted and all of them armed, are scattered about the plants, keeping the pedestrians on the move and preventing anything that has the appearance of congestion about the plants or adjacent streets. They are under strict orders and have wide authority to quell anything which starts.

The situation as it affects the independent steel companies in the Pittsburgh district is practically the same as that of the United States Steel corporation, against which the strike is mainly directed. A few of the independent plants have closed down, preferring to take this method to prevent any trouble. But in the main the independent concerns, like the corporation, have opened up shop and continue with their work.

## CHICAGO HARD HIT BY WALKOUT

### Claim 80,000 Steel Workers In South Chicago, Indiana Harbor and Gary Are Idle.

CHICAGO, Sept. 22.—Without the slightest sign of disorder 80 percent of the upwards of 100,000 steel workers in the Chicago district, comprising Chicago proper, South Chicago, Indiana Harbor, Gary and numerous other small steel towns in the Calumet region, went on strike today.

According to union leaders the strike has "paralyzed the steel industry in this section."

Mill operators, however, refuse to admit the industry is paralyzed and expressed the hope that before night fall many of the great steel plants

would be operating, "probably not full blast, but operating in a way that will save the mills."

Union leaders and strike committees declare that fully 95 percent of the men employed in the industry in this, the second largest steel section in the country, are out.

"This is not a fight for more money," declared one striker, "it is for principle and we will win without any disturbance."

This statement is borne out by the fact that up until 10:30 not a single case of violence had been reported either by the union men or the officials of the plants hit by the strike. Guards are on duty at practically all of the plants. Guards are on duty at the plants, but both guards and pickets "are working in complete harmony," according to reports.

MOST BELOVED ROYAL COUPLE IN EUROPE COMING TO U.S.

King Albert, Queen Elizabeth and Crown Prince Leopold of Belgium.

King Albert and Queen Elizabeth of Belgium, the most beloved royal couple in all Europe, and Crown Prince Leopold, are to arrive in the U. S. Oct. 1 for a visit. The fortitude shown by the king and queen in the days when the Germans swept through Belgium endeared the couple in the eyes of their people. The king and queen gave up their royal palaces and lived as the rest of the people lived. The queen worked untiringly to help the women and children of the nation while King Albert was at the front.

Since the war the democratic spirit of the people has made them exceedingly popular outside of as

well as inside of their country. They have made several airplane flights from the European mainland to England.

King Albert has said that his visit to the U. S. is for three main purposes, to thank the Americans for what they did for Belgium, to repay President Wilson's visit to Belgium and to "learn something" from American ways and ideas.

The Crown Prince Leopold is the only one of the children accompanying the royal couple, according to reports. He is eighteen years old.

### ATTACK WHEN BALKAN TROOPS TRY TO LAND ON DALMATIA

### Naval Vessels and Militia Prevent Move, Says Rome Dispatch.

### BLOCKADE OF FIUME

### "Hindenburg Line" Constructed Aroud City; Defended by 20,000 Troops.

ROME, Sept. 22.—An attempt by a Jugo-Slav force to land on the coast of Dalmatia was prevented by Italian naval vessels and Italian militia, it was semi-officially announced here today.

Dalmatia is the strip of land on the Adriatic coast lying between the Istrian peninsula and Montenegro. Formerly it belonged to Hungary, but at present Italy and Jugo-Slavia have lodged rival claims to portions of it.

PARIS, Sept. 22.—Italian troops sent to conduct a blockade of Fiume have constructed a "Hindenburg line" for seven and one-half miles around the city, supported by block houses, machine gun nests and barbed wire entanglements, according to a dispatch to the Journal today from Andre Tudosko, a correspondent.

The "Hindenburg line" is defended by 20,000 Italian troops, but the blockaders are fraternizing freely with Captain Gabriele D'Annunzio's raiders.

General Badoglio, commander of the blockade troops, has established an "armistice line" five miles from the city.

M. Tudosko encountered the military line when he tried to enter Fiume. He reports that no correspondent is permitted to pass into the city without close scrutiny.

Another report from the Fiume district says D'Annunzio was holding the Italian troops in Fiume to prevent the allies from bombarding.

at 6:30 today, many of the men carried their clothes in bundles and went to their homes. All plants are working with reduced forces.

"This strike will be a war to a finish," said S. T. Hammersmark, assistant secretary of the Youngstown district, representing the 24 amalgamated unions. "We have asked the men to be orderly and to remain at their homes, but we have also made it plain to them that the future of organized labor hinges on the outcome of this strike. If they lose this strike, the backbone of unionism will be broken and the men know it."

Hammersmark was busy until an early hour this morning accepting members into the union. He had a corps of workers busy writing receipt cards and taking the dues of the men.

Meetings were held in eight sections of Youngstown and East Youngstown last night. The address of J. E. McCadden, general organizer and treasurer of the Mahoning and Shenango district for the American Federation of Labor, was probably the most significant.

In his address, McCadden called upon the men to use their "best judgment." "Go to your homes and do not carry even a pocket knife while on the street," he said. "I may be put in jail before this week ends, but if I am, I have a good lawyer to take care of my interests. Do not give up the fight."

### MANY PLANTS

Continued from Page One.

Officials of the steel companies stated that the strikers were practically all foreigners. The American skilled

workmen—some of whose wages run as high as \$30 to \$40 a day—did not heed the strike call and trudged into the factories this morning when the whistles blew.

Dona reported the big plant of the American Steel and Wire Company, employing more than 3,600 men, shut down completely. Strikers surrounded the gates of the company in large numbers and as the situation became threatening, the officials simply locked the gates and barred all entrances.

The great mills of Homestead, Duquesne, Braddock, and the South Side of Pittsburgh, forming the backbone of the Monongahela district, were quiet and operating with but little loss of labor, according to reports.

The Allegheny valley district was somewhat more affected. The Allegheny and West Penn Steel Company plant at Breckenridge, largest of the valley plants, though operating, were badly crippled.

At New Castle, where 10,000 men were employed, it was reported that approximately 20 percent were out, and at the Vandegrift 30 percent heeded the strike call.

The great plants of the United States Steel Corporation at Sharon and Farrell were operating in all departments.

Jones and Laughlin, probably the biggest independent operators in the district, reported that their mills were operating 100 per cent.

Parades were held in a number of the factory towns this forenoon mostly by striking workmen.

At Homestead the American workmen lined up and paraded into the plant to work.

W. Z. Foster, secretary of the workers' national committee announced today that an extraordinary meeting of the American Federation of Labor's and steel workers will meet here Wednesday morning. John Fitzpatrick, who is chairman of the committee, is now in Chicago.

CLEVELAND, Sept. 22.—Union leaders estimated at noon today that 20,000 steel workers are on strike in the Cleveland district.

Adding to the effectiveness of the strike, switchmen employed on the Newburgh and South Shore railroad, which is the feeder line of the big steel mills, joined the ranks of the strikers.

This, according to H. W. Raisse, secretary of the strike organization in this district, will prevent all materials moving into the mills and prevent even partial operation.

More than 15,000 strikers "mobilized" shortly before noon at Brookside stadium where a rousing rally was conducted.

There was no disorder reported. Small forces of police were on duty at all plants.

At noon all departments of the American Steel and Wire company operating 18 miles in this district, were closed down, according to S. W. Tener, one of the executives.

### MILLS IN DISTRICT ARE NOT AFFECTED

Steel and sheet and tin plate mills in the East Liverpool district resumed work Monday as usual despite the nation-wide steel strike.

The two plants of the American Sheet and Tin Plate company at Chester and Wellsville, employing approximately 1,700 men, started work at midnight Sunday after the usual week and cessation of operations.

None of the workers in the various copiers in Midland, Pa., was affected by the strike order, it was announced Monday.

Officials of the Pittsburgh Crucible Steel plant in Midland stated Monday morning that every department of the big plant was working in full.

over his amendment in the senate this week. Johnson wired Borah that he would be in his seat tomorrow.

Senator Reed, of Missouri, a Democratic opponent of the league, will open the fight for the amendments supporters this afternoon with a long speech in which he will take issue with President Wilson on the proposition of the British Empire having six votes and the United States but one in the league assembly.

The real fireworks will not begin until tomorrow, however when Senators Lodge and Knox are scheduled to lead off the debate for those favoring the amendment after it is formally called up by the Massachusetts senator. Senator Penrose is looking after the parliamentary details, while Borah and Johnson promise to pour much hot shots into the ranks of the administration forces.

Both sides admit that the vote on the amendment is almost certain to be "close." Both sides, of course, claim victory.

The amendment is certain to prove a crucial test of strength between the opponents and proponents of ratification of the treaty without amendment or reservation.

Burlingame Goes to Oil City.

William Burlingame, of Ohio avenue East End, left Monday morning to accept a position with the Blizard Publishing company of Oil City, Pa.

Mr. Burlingame had been pressman at the Morning Tribune for eighteen years. His family will join him in Oil City in two weeks.

A similar story of price manipulations is being circulated about a Wellsville clothing merchant.

### STEEL CREWS IN TIN MILL HERE

Steel Strike Has No Effect On Tin Plate Plant.

Unless unforeseen conditions arise, the nationwide strike of steel men will have little bearing on the operation of the American Sheet and Tin Plate plant in Wellsville, which is a subsidiary of the United States Steel Corporation. This was definitely determined Monday morning when full crews reported for work in the various departments.

B. J. Ross, general superintendent, stated that it was unlikely that any of the strike effects would be felt here. The men are apparently well satisfied with working conditions, he said, and the fact that there was a full force out for duty Sunday indicated that a strike had not been considered.

John M. Peters, Wheeling district secretary of the national committee for organizing iron and steel workers, advised approximately 2,000 mill workers of the Wheeling district at a meeting Sunday afternoon to go to their homes and remain peaceful. All were ordered to obey laws and to create no disturbances nor to hold meetings unless authorized by the international union officials. Approximately 5,000 will continue to work, it is announced, in mills which have recognized the union.

### BOY, BITTEN BY MAD DOG, DIES

Theodore Burke, eleven-year-old son of Mr. and Mrs. J. W. Burke of Toronto, died Saturday as a result of an attack of hydrophobia, having been bitten by a dog suffering with rabies, it developed August 22.

The Burke boy, while playing several weeks ago with the animal, was bitten in the ear. He failed to make any mention of it to his parents. Later hydrophobia symptoms began to develop and the Pasteur treatment was given him.

Austin Burke, brother of the deceased, was the second victim of the dog. The fact that he immediately told his parents of the occurrence probably saved his life. He was treated successfully by physicians who attended him immediately after he reported the case.

The dog was locked up but managed to escape and at Richmond, it is reported, bit another youngster. It developed later that the dog attacked several other dogs and live stock in Richmond.

Funeral services for the Burke lad were held Monday, interment being made in the Toronto cemetery.

## A DENIAL

A story has been put in circulation about Bendheim's Shoe Store, either carelessly as a mere joke or by some individual who willfully intended to poison the minds of the community with ridiculous figures on the cost and selling prices of shoes, that we feel in justice to our friends and to ourselves, we should make this denial.

We positively and emphatically deny that our store has been visited by any Federal, State or Local official who either bought Shoes or examined our books and invoices or asked to do so. We deny and brand as false the statement that the proprietor or any of its employees have been arrested or threatened with arrest for profiteering. To add emphasis to this statement, we offer

**A Reward of \$1,000.00**

To any person who can prove one word of these false statements.

Bendheim's Shoe Store for thirty consecutive years has always protected its customers, giving excellence of shoes, ability of service and fairness of prices.

The humiliation to which we have been subjected by these reports did not come from our customers, some of whom have traded with us ever since we are in East Liverpool, and who know the good name and reputation of this store, nor does it carry weight with any person who has traded enough to see and compare prices and merchandise—But it is a blot—in the eyes of perhaps a few who have not known us long—upon a record heretofore kept clean and we feel we must take steps to erase it.

### Over-Worked Men

The Strenuous Life We Are Living Uses Up Our Vital Forces Faster Than Nature Can Replace Them.

To overdo anything is harmful and a continuation of it will wear out the strongest man. Overwork, worry, brain-tire, high living, dissipation and other such habits waste away the most vital elements of the blood, brain and nerves—then disease sets in. At first there will be a general indisposition, poor appetite, indigestion, severe headache, wakefulness and weakness in the back, the temper irritable, the spirits depressed, the memory poor and the mind weakened, ending in premature decline. Dr. Chase's Blood and Nerve Tablets correct this condition by building up your blood and nerve forces. A trial will convince you. ## IDLE TROLLEY LINES.

Much food, as everybody knows, goes to waste on the farms surrounding every center of population, when the city folk would gladly buy the food if they could get it. The farmer is generally blamed for this, and rather unjustly.

The farmer is generally working honestly, according to his lights, and doing all the work he can. Much food spoils because he cannot take the time to haul it to market, or to railroad freight stations. He does not send it by express or parcel post because the rates are comparatively high, and that form of traffic has not been properly developed.

What then? There is still, in thousands of rural communities, a fairly simple and economical way to get the produce to the city, and one which is little utilized for that purpose. It is the interurban trolley line.

Most of these lines operate at present only a little more than half the time, when they might be working 24 hours a day as the railroads are. Their working time, too, is devoted almost wholly to passenger service. Their tracks are not crowded. They might easily run many freight cars between the passenger cars by day, and might run an exclusive freight service for several hours at night, if the plan were once developed and popularized.

There would be little additional expense. The same rails, wires and power houses would serve. About all that would be needed for this extension of service would be additional cars and crews, with perhaps a few extra powerhouse employees and a little more fuel.

Experts point out that this would add greatly to the revenues of the companies, and would at the same time give the cities more plentiful and cheaper food, and bring greater activity and prosperity to wide rural areas. The thing has been tried to some extent, but there is room for a vast growth along this line.

## THE COUNTY FAIR.

This is the season when county fairs come to their full fruition, and happy is the community like Columbiana county, which has one in its midst, or near enough to be easily accessible.

A well planned county fair, besides being a source of amusement and interest, may have great educational value. A fair of this type at Brookton, Mass., has been the subject of such careful planning that schools in Brookton and many surrounding towns are closed to permit the children to attend.

At this fair are exhibited the best results of advanced agricultural methods, of stock raising, vegetables, fruits and meats preserved according to the most scientific formulas. Such exhibits arouse in the beholder a desire to go and do likewise. He makes the effort to find out how such things were done, and so the propaganda of improvement spreads.

At most fairs this year there will be trophies from the battlefields, weapons of offense and defense, to recall to the mind the terror and actuality of the great conflict through which the world has just passed, and to remind people of what war really means—the terrible destruction of human life. This freshening of the memory is timely. It will help the people of this country to hold steadily to the course of action which tends best to prevent a recurrence of war.

Take it all in all, most county fairs this year will be more valuable and more interesting than ever before. No one who can visit one can afford to stay away.

## SLAIN MEXICANS.

Probably the two Mexicans lynched in Pueblo, Colo., deserved execution. They were charged with the murder of a policeman. Their guilt, however, does not seem to have been clearly proved; and if it were, that was certainly not the way to execute them. If the law had been allowed to take its course they would have met strict justice, and the United States would have been saved an embarrassment in dealing with Mexico.

Suppose those two Mexicans had been Americans, lynched in Mexico. What an indignant outcry would have been raised! Even if they were guilty of murder, that fact might have been lost sight of or explained away.

The Pueblo incident suggests a calm balancing of accounts. Granted that many grievous crimes have been perpetrated against Americans in Mexico; there have been crimes, too, against Mexicans in this country. Doubtless, our people have suffered far more wrong than they have inflicted. But it would be interesting to have a list of Mexicans killed by Americans in the last few years to set over against the list of Americans killed by Mexicans.

It is not necessary to argue whether the life of a Mexican is worth as much as the life of an American. The point is that a little investigation along this line, would show that the Mexicans have some grievances of their own. Moreover, any offense committed against a Mexican is sure to be made known in Mexico, with embellishments, complicating the problem of getting Mexico to respect American rights.

The Crown Princess of Germany, after applying for a divorce, is visiting the crown prince. Probably to see if he is as bad as she thought, or only worse.

Don't forget that, after all, this high cost of living was "made in Germany." All these investigations merely deal with the process by which it has arrived.

Raisins have gone up 100 per cent. Sure, a raise in raisins was to be expected, especially when they started making fermented drinks with them.

Those Mexican bandits are wasting their talent. They ought to cross over the border and go into the food business.

Prunes are no longer a cheap jest. Confectioners are stuffing them and selling them for a dollar a pound.

## NEW YORK LETTER

By O. O. McIntire.

NEW YORK, Sept. 22. — Thoughts while strolling around Manhattan: Portly little man with the big derby and dragon mustache is a great criminal lawyer. Goes to burlesque shows every week. New Capitol theatre opened. Largest in the world. Seats 100 more than Hippodrome. Bake shops are getting high toned. That one calls itself "Patisserie et Confiserie."

Wonder where all these horsey looking men with hoarse voices you see around Times Square came from? They're not ticket speculators. They seem polite. Mayhap their polished Bill Sykes' exteriors are bizarre domiciles for lofty souls! Or maybe they are revenue agents.

Sam Blythe admiring some walking sticks in a cane shop. Getting thin. Cozy little portico of a cafe. Amid the din of the Roaring Forties. Only room for six. There goes a Turkish lady with soulful eyes. Dances in a cabaret.

A teamster sniffing cocaine and making no effort to hide it. Group of pretty Jewish girls. Shirt waist workers on strike. Wish I had enough money to strike! Or take a vacation. Eve Balfour, the English movie vampire. Looks more like a simple milk maid. Come to think of it I never saw a milk maid in my life. Asa, the hired man, always milked ours.

Follow talking to flower boy is Finley Peter Dunne. Just resigned as editor of Collier's. Here comes a band. Hope they play "Lullaby Blues." Some song. Think I'll take mail order piano lessons. Fall hats are fuzzy again. Old Jim Robinson, the colored man in the livery stable back home, wore a straw hat the year around.

All you could hear around the actor strike headquarters was, "Don't Talk." That's all they'd say. I'm going to stay away. There's Wolpin's. The hang-out for clog dancers. Somebody said they sold wooden shoes at the cigar counter. Heigh ho! Time to eat.

There are some queer occupations in this metropolitan center. But the most unusual came to my notice on a ferryboat trip to Staten Island. In the waiting room my neighbor seemed intent on conversation. He discussed the fresh, clean air, the rock of the boat and other things. He was a sturdy, virile person and had unusually shaggy eyebrows. His glasses gave him a certain dignity and he had a Johnsonian voice. Before he left he gave me his card. It was a flowery name—the last being in three sections. And down in the corner it gave his occupation as that of manager of the jewelry department of a well known ten cent store. That was a new one to me.

The waiters in the cheap restaurants and lunch rooms on the East Side are on strike. The strikers stand out in front with signs on their hats reading: "We are only striking to keep from starving." The waiters in the all night restaurants claim their job is a hazardous one. About ten all night lunch rooms are "stuck-up" every week by hold-up men. Generally they overpower and black-jack the waiter and in some instances leave him lifeless. The East Side waiters must be husky for at times they are forced to fight to get their money from customers. Men too these days the East Side toughs carry their whiskey to the lunch rooms and generally get rowdy and rough.

The ultra-modest at Rye Beach are up arms—no pun intended—because the shining sands are infested with water nymphs and bathing suit lizards. A bathing suit lizard is a young person, male or female, who, like the darling daughter of the immortal doggerel, hangs up his or her clothes on a hickory limb—but carefully refrains from going near the water. The ultra-modest have asked their chief of police to eliminate the allurements of the water nymph and of at least the female of the species of the bathing suit lizard—doubtless on the ground that it is deadlier, because far more beautiful than the male.

## MAKE SURVEY OF OHIO RIVER BED NEAR HERE

Engineers Complete Taking of Soundings at Dam No. 8.

## THREE MEN ON JOB

Survey Shows Whether River Bed Has Undergone Changes.

Engaged in a semi-annual survey of the river bed of the Ohio river between Pittsburgh and Cincinnati, Engineers Leslie Schofield, R. L. Gies and Henry Pockras, of the U. S. engineer's office, Cincinnati, concluded taking soundings at Government Lock No. 8 just below this city, Saturday.

The engineers started from Cincinnati several weeks ago and took soundings 1,000 feet above and 1,500 below all government locks in the Cincinnati district up to Lock No. 28, at Huntington, W. Va. They skipped intermediate locks to Dam No. 10, at Steubenville, the first lock in the Pittsburgh district.

It is the plan of the experts to complete their survey of the Pittsburgh district locks up to Dam No. 3 just below Pittsburgh. A record of their findings is preserved in the engineer's office in Cincinnati. This survey tends to show whether the river bed is undergoing any radical change throughout the year.

Three boats, passed through lock No. 8 during the last 48 hours. The Beacon passed up Thursday with nine empty barges en route from Steubenville to Pittsburgh for another shipment of coal for the La Belle Iron works. The Alice, owned by the East Liverpool Sand Gravel Company, was lowered through the lock Friday afternoon with two flats of sand and two of gravel consigned to the Freshwater Brothers' dock at Congo, W. Va. The material is used for road building purposes in Hancock county. The packet General Pershing with 160 tons of miscellaneous freight and 22 passengers aboard, arrived here Friday afternoon on its downward trip from Pittsburgh to Parkersburg, W. Va.

## NEARLY BLINDED BY EXPLODING COFFEE POT

BEDFORD, Ind.—John Gassaway nearly lost the sight of both eyes when a coffee pot blew up. Gassaway and Henry Clendening were operating a fishing and mussel shell camp and Gassaway was preparing a meal over the gasoline stove. Just as he stooped to lift the coffee pot it exploded, scalding his face and burning his eyes with the hot fluid and grounds. It was believed the strainer of the pot became stopped up.

## POCKET RAZOR STROP SAVES SOLDIER'S LIFE

CASPER, Wyo.—A small pocket razor strop is the cherished souvenir of the great war on display here. Its owner, J. A. Sheffner, local business man, received it recently from his son, Camden Sheffner, who is now on his way here from France. Young Sheffner claims the strop

saved his life in the battle of the Aisne, near Primes. Carrying it in his breast pocket, the strop deflected a Hun bullet sufficiently to cause only a slight wound instead of a fatal one.

## HARVARD MEDICAL SCHOOL SWAMPED WITH APPLICANTS

CAMBRIDGE, Mass.—The greatest number of applications ever made for admission to the Harvard Medical school, three times more than the school can accommodate, have been received. Of the 400 applicants 280 must be refused, and even with this culling there is an increase of thirty students over the previous limit of ninety for first year students.

Harvard officials explain the great increase by the work of Harvard medical men in the war, which they say has brought the school to a position of pre-eminence among the colleges of medicine and surgery in this country.

An approaching machine driver, it is claimed, refused to turn off the brakes to the right. To avoid a collision, Cope was compelled to turn to his left and stop. ## WHY HIS WIFE TOOK REMEDY

Claims She Had Suffered With Her Stomach and Could Not Sleep at Night.

Recently Mr. Valentine Legler, who resides at No. 226 Pearl street, Pittsburgh, and is a popular employee of one of its largest foundries there, stated how his wife was relieved of a severe case of stomach trouble by Plant Juice as follows:

VALENTINE LEGLER.

"My wife, Mrs. Margaret Legler, who has been troubled with her stomach for a long time, could not sleep at night, was bloated with gas and suffered the greatest distress after eating, found great relief in Plant Juice. She had headaches and would be very dizzy at times and get weak and completely run down. Friends had told us of the great relief they obtained from Plant Juice, so my wife began to take it. The relief she obtained after one bottle of your medicine was truly wonderful; she now sleeps well, has a fine appetite for all of her meals and is no longer troubled with constipation. She says Plant Juice has made a new woman of her; she has gained 40 pounds in weight. We certainly felt it our duty to recommend Plant Juice to others."

Plant Juice is sold in East Liverpool at Leekins' drug store.

**Had a Bad Liver For Many Years**

Wheeling man's wife relates how the system tonic, Drecto, has entirely relieved her husband.

That the stomach is responsible for ninety per cent. of all the diseases that human flesh is heir to, is generally conceded by the medical profession. When we realize that it is also indirectly responsible for liver, kidney and bladder troubles, we appreciate the importance of any agent that will correct its harmful influence.

Drecto is proving that it is a true specific for all cases of stomach trouble. It exercises the greatest restorative effect on the liver and kidneys and rheumatism. That this is the logical effect of Drecto is proven by the testimonials of well known people who have regained their health by the use of this preparation.

"My husband has been suffering from a sluggish liver for quite a while," says Mrs. Fred. Burgbacher, of 624 47th street, Wheeling, W. Va. He would have dizzy spells, bad taste in his mouth, his appetite was badly off, and he became generally run down and lost tired; no account and drowsy most of the time. Two bottles of Drecto have sure made a big change in his feelings, for he feels full of energy now; appetite is great; rests well at night; never has a dizzy spell, and his constipation is entirely gone. He surely believes in Drecto."

Drecto acts on the liver and overcomes biliousness, vertigo, weak kidneys; overcomes constipation; produces sound sleep; creates a healthy appetite; fills the system full of vim, vigor and vitality, and makes you glad you are living.

All good druggists now sell Drecto and it is highly recommended in East Liverpool by Flick's Drug Store, Fifth and Market streets.

## The Autumn and Winter Fashions Were Never More Interesting. UNLIMITED SELECTIONS FOR FALL DISPLAY DAYS

*The bonds of wartime restraint have been severed, the pent up genius of Paris creators have found vent in the creating of modes of the most original and entrancing kind.*

*The influence of the new creations imported from Paris fall openings, is apparent in the new styles—the new gowns, suits, coats and wraps shown here on fall display days.*

### Suits

Suits are vogue. Indeed there are occasions when one will be actually de trop, if one is not wearing a suit this season. That is why we made arrangements months ahead that brought to us for display days complete selections of suits and of a class and a variety insured by the many well-known New York designers creating them.

And as to a selection we have suits of all the new materials coupled with serges, broadcloths and wool poplins, made up in the high waist line and the rippled effects with plain or fur collars and cuffs.

Suits, which are much in vogue, are here in every new interpretation of the new style silhouette.

These materials are of fine grades—especially the soft surfaced duvetyn and allied clothes of high character which afford such distinction and permanence of style lines.

### Coats

The happy condition so far as the coat styles are concerned is that one may choose coats in the lines one likes best. Variety reigns.

The slim, semi-fitted silhouette on the one hand occupies style position with dolman sleeved types prominent on the other.

### Dresses

The air of quiet elegance of the slender gowns on the chemise lines is appealing to a great many smart people. Not only the lines of these frocks are very desirable, but the touch of some of the beautiful new rich trimmings add to their distinction. Silks or worsted embroidery or flat silk braid—quiet or vivid in tone have just that effect of adding style character.

Jet bead or spangles is another popular trimming, especially for the dressier dresses.

The dress modes are of infinite variety and those for formal afternoon and evening wear are of great distinction and beauty.

## WILSON STARTS BACK TO WORK

By JOHN EDWIN NEVIN.

ON BOARD PRESIDENT WILSON'S TRAIN, EN ROUTE TO RE-NO, Nev., Sept. 22.—With his train definitely turned northeastward, President Wilson today made a start for home, personally to assume command of the final day's battle for the ratification of the treaty of Versailles.

The president believes absolutely that the votes are available for complete ratification and he remains extremely confident that the vote to reject any and all reservations and textual amendments that go to the heart of the treaty and which would require resubmission of the treaty to the signatory powers for approval will be an overwhelming one.

The biggest test will be on the Johnson amendment to demand for the United States the same number of votes that are given to Great Britain and on the Norris amendment that would substitute China for Japan wherever the latter nation is mentioned as a beneficiary in the Shantung provisions of the treaty.

A count in the senate, made by senators who worked independently of the party poll, is stated to have shown that both amendments would receive from three to ten votes less than a majority. Names naturally are withheld, but it is positively claimed by members of the president's official family that the opposition cannot win.

## OHIO FIRST CLUB MEMBERS

Columbus, Sept. 22.—Superintendent of Public Instruction and his assistant, Vernon M. Reigle, are the first members of the Ohio First club. This organization, just launched by the Ohio war savings committee, would have every school teacher and pupil in Ohio, a member. "One million members before January," is the aim of the Ohio war savings committee, sponsor for the movement. Memberships may be secured only by buying or selling one war savings stamp.

Supt. of Instruction Pearson, in a public statement, called upon all Ohio teachers to become members of the organization at once, so that by the example they set, the pupils could be induced to do likewise. "He who teaches the people to want the right things is as much a contributor to national greatness as is the man who organizes the industrial force in the most efficient manner for supplying of wants," said Superintendent Pearson.

School teachers all over Ohio have been asked by the war savings committee to make the Ohio First club the foremost organization among school children in the state. Many county war savings organizations are offering prizes to the school rooms which first report 100 per cent memberships.

## Feathers Will Have Prominent Place In New Fall Millinery

By ELOISE.  
There is a remarkably interesting display of fall and winter millinery in all the shops. In fact, winter millinery—or velvet has—were exhibited in July, but there were not as

many worn this summer as in former seasons. Various materials are utilized for the making of the new hats—velvet, silken, stuffs, duvetyne cloth and everything else in the category. The shapes are varied. There are weird effects and more commonplace things; a very fair percentage of lovely designs and a still greater percentage of creations not lovely but indubitably chic.

The large hat, particularly the large black velvet hat, has always been a refuge for the woman who finds it difficult to make a satisfactory models which use cassowary feathers. Below is a saucer-shaped hat of red velvet with a heavy fringe of blue feathers. The small toque above is a smart taupe panne velvet covered with natural cassowary feathers. tory choice. In one shape or another it is fairly sure to be becoming.

But if the big hats are varied the small hats are still more varied. There is no end to the charm and whimsicality of them. They too are likely to dispense with complicated trimming though their crowns are often intricately draped in a most amazing swirl. Ostrich, curled and uncured, gourra, burnt goose and cassowary are among the most popular.

**PREDICTS BOOM IN BOAT TRADE**

That the Ohio river is destined to become one of the most important mediums of transportation in the United States within a few years is Ferguson, district United States engineer, the belief of Lieut.-Col. Harley B. near.

Steel, Harley declared, rules the world. With Pittsburgh as the hub of the steel industry, the Ohio river as an adjacent means of transportation, will be used extensively in the shipment of Pittsburgh's steel products to central and southern United States.

The importance of seeing that the Ohio river is developed to its fullest extent should be firmly emphasized, Harley said.  
The movement to push the selection of the proposed Ohio river-Lake Erie ship canal joining the Ohio river at Beaver, Pa., as a government-sponsored link in the Great Lakes transportation system is being strongly backed by interests in the Pittsburgh and upper Ohio districts. If this route is chosen, it will add to the importance of the Ohio river as a transportation medium.

News Notes from MOVIELAND

Robert Harron was a busy little rascal boy in the Biograph studios in 1908 when David Wark Griffith, then directing there, spied him. "That youngster has too much head for that job," thought Mr. Griffith, and straightway took him away from that job. Through the famous director it was that the good-looking youth got his chance, and it is to his credit, that he has done most excellent work ever since.

Mr. Harron has been connected in turn with the Reliance-Majestic, Fine Arts, and recently Paramount, where he has appeared principally in support of the Gishes, Lillian and Dorothy. Among the pictures in which he has appeared at his best are "Intolerance," "The Birth of a Nation," and "Hearts of the World." One of his newest releases is "The Mother and the Law," which is the modern episode in Intolerance enlarged and re-edited.

Mr. Harron is in his early twenties, slim, brown haired and brown eyed. A bachelor Oh, goodness gracious, yes, girls!

EARLE WILLIAMS' NEW CONTRACT.

Earle Williams has signed a new contract to appear with the Vitagraph company for another year. The contract was entered into in Los Angeles and the telegraphic communication regarding its consummation reached New York a few days ago.

SHE'S NOT EARLY BIRD.

Louis Burston, picture producer, has just brought a damage suit for \$31,000 against Grace Darmond, alleging when she had been engaged by him for one of his serial productions, her repeated late arrival for work on "Location" had delayed production to the damage extent prayed for.

FILM STARS COMPETE.

Art Acord has challenged the prominent cowboys in filmdom to compete with him in a rodeo to be held at Ascot park, Los Angeles, October 3-5. Doug Fairbanks has agreed to enter. Others will be Tom Mix, Will Rogers, Fred Stone, Hoot Gibson, Pete Morrison, Harry Carey, Neal Hart, Jack Hoxey and Fred Burns.

SOUTH DAKOTA BOOSTS FIRST MEMORIAL PARK

WASHINGTON—Davidson County, South Dakota, is one of the first counties in the country to report a memorial grove planting to the American Forestry Association. Hitchcock Park, at Mitchell, will be turned into a memorial park by additional tree planting and a boulder placed in the center with the names of the county heroes. The American Forestry Association is registering all memorial trees in a national honor roll.

EXHIBITS PLANE WHICH WILL RISE VERTICALLY

NEW YORK—The model of an aero plane which will rise vertically, is being exhibited at the rooms of the Aero nautical Society here by W. J. Beach, an inventor.

The fundamental principle of Mr. Beach's invention is that it is lifted straight up from the ground by means of revolving aerofoils rotated from their outer periphery. Horizontal and longitudinal stability are assured by revolving ailerons and stabilizers.

Because of the revolutionary effect such a plane would have on the airplane market, the exhibit is attracting more than passing attention.

RICHMOND, WOODEN SHIP OF FARRAGUT'S FLEET, DOOMED

BOSTON.—The famous old wooden warship, Richmond, one of Admiral Farragut's fleet of "Damn the torpedoes" fame, is to be towed here from Philadelphia. Here the wooden warrior will be burned to recover the metal used in its construction. The ship of war served its country thru three bitter wars.

BOSTON, Sept. 22.—Charging that she broke her teeth while eating beans Mary J. Armstrong has brought suit against the H. J. Heinz Co., of Cambridge, for \$2,500. It is contended that some foreign substance was in a can of beans, so that the fair name of "Boston baked" is not blemished.

DOCTOR TO MAKE HIS ROUNDS IN AIRPLANE

CANTON, Ohio.—Quick, Watson—the needle! Dr. Frank L. Nape, Canton physician, has ordered an airplane and will

**LEAH BAIRD IN FILM OFFERING AT STRAND**

Many have been the stories written around the interesting subject of a double standard of morals. Augustus Thomas, the greatest American playwright, chose this subject for "As a Man Thinks," the Four Star attraction featuring Leah Baird at the Strand theatre Monday and Tuesday. That there is and must be a double standard of morality is pointed out in this fascinating drama.

The action of the story takes place in New York and Paris. In the latter city Frank Clayton finds amusement in a flirtation with the audacious "Mimi", artists model. When his wife, plucked at his actions, accepts attention from an old suitor, the husband forgets his little affair and accuses his wife. The working out of the situation brings "As a Man Thinks," to a strong climax.

George Irving, famous for his artistic productions, beautiful settings and attention to details, one of his most notable pictures being "To Hell With the Kaiser," is responsible for the splendid direction given "As a Man Thinks".

**CLAIRE ADAMS STARS IN "END OF WORLD"**

A motion picture in these days to be the talk of any town must be exceptional, and that seems to be the case with "The End of the Road", at the Diamond theatre. It is a picture that has been witnessed, discussed and endorsed by city officials, prominent clergymen and physicians and club women. They have recommended it enthusiastically for public exhibition.

Recently, in Syracuse, N. Y., the Reverend Frederick W. Betts, Chairman of the Moral Survey Committee, remarked at one of these discussions that he was amazed to find in a picture that dealt so openly with the unpleasant subject of venereal disease such a sweet, wholesome atmosphere, such a purity and nobleness.

Ex-High Machine Is Rolled

They say a bad beginning makes a good ending.

If that's the case then John Coleman's squad of high school pigskin chasers ought to wind up the season with a grand and glorious burst of speed. It may be said that their initial appearance on the white lined field Saturday when they lost to the Ex-Highs 27 to 0, a clean blank, was anything but a successful opening.

Four touchdowns and three subsequent goals kicked were recorded by the alumni gridders against their younger opponents. It may be contended that the blue and white squad was younger and lighter than the former high school players, but it must be remembered that the gang of ex's were without practice and not in the physical condition that the younger lads were. Undoubtedly had High's quarter chosen to play end runs the first quarter or half instead of trying to jam a hole through the alumni line it is likely that they would have stood more chance with the score keepers and a lot of the old timers would probably have been running around with their tongues hanging out. But it was the first attempt of the blue and white this season and numerous mistakes which were uncovered can be remedied as the season progresses. It is just as well that the game was lost to the alumni as a better opponent couldn't be

picked to lose to with more grace on the part of the losers. The exhibition as a whole was slow and devoid of any sensationalism. Forward passes over the lines proved too hard for High school to handle and as a result Mundy scored twice by this method. Bucher and McConville carried the ball over through the line route. High's attempts at forward passing met with failure, with one or two exceptions.

End runs apparently were an unknown quantity to Coleman's men. A number of off tackle plays were attempted, but never did the school lads try to flank their opponents with a wide run. They seemed to want to huddle together and hit the alumni line where practically no advantage could be made.

Kinsey at fullback played a fine game for the high school team. His tackling featured the blue and white defense. McKinley at center also proved a strong defensive player. Back field operations were hampered to a great extent by lack of good interference.

The lineups:

High school: L. E. Jones, Manton, L. T. Bryan, Chadwick, L. G. Smith, McKinley, L. G. Calhoun, Robinson, R. G. Brown, Bromby, R. T. Bucher, McDonald, R. E. Mundy, Buxton, Q. B. McConville, Menge, L. H. Hickey, Dimit, R. H. Vorndran, Kinsey, P. B. Bucher.

COMING CLASH BETWEEN REDS AND SOX

By N. E. BROWN.

Right off that bat I would pick Claude Williams as the big question in the coming classic between the White Sox and Reds.

The White Sox southpaw has been an enigma all season in the Ameri-

can league. Against most of the teams he looked like a world beater. The records show that he was one of the best winning hurlers in the circuit. He made an admirable running mate for Eddie Cicotte. Together they pitched the team to a pennant.

But, on the other hand, Williams proved pie for the Cleveland Indians. They beat him three or four times. I sat in at one of the White Sox-Indian games in Cleveland in the final series when the Tribe had a chance at the flag, and saw the Indians pummel everything Williams threw toward the plate. They scored four runs off him in the first inning and drove him to the cool and soothing showers. A couple of times before in the campaign they treated him the same way. And among his defeats are a few other complete routes contributed by one or two of the other clubs.

Now, the point is this. Will Williams be effective against the Reds as he was against the majority of the teams in the American league. Or will they find him pie? His success may have a direct bearing on the outcome of the show.

WILL ENFORCE  
BANKING ACT

COLUMBUS, Sept. 22.—State Bank Superintendent Philip C. Berg today announced that he would immediately start a campaign throughout the state to enforce the provision of the new state banking act prohibiting the use of the words "bank," "banker," "banking," or "trust" by persons other than those lawfully engaged in the banking business.

Complaint has been made that persons engaged in money lending are violating the new law by using such terms as "loan bank," "banker" and kindred terms forbidden by it, and it is against these persons that the superintendent is about to proceed.

Violators may be fined \$100 a day for the entire period that the law has not been obeyed. The new law became effective on July 11 of this year, and if the prohibited words have been used continuously by violators since penalties of \$7,000 in each case may be imposed up to this time.

The law makes it the duty of the state bank superintendent to enforce the law and collect the penalties. The larger cities of the state will be first visited by the officials of the department to round up violators.

Superintendent Berg is of the opinion that the prosecution of a few offenders will have a very salutary effect and will be the means of bringing about a complete compliance with the law in every city in the state.

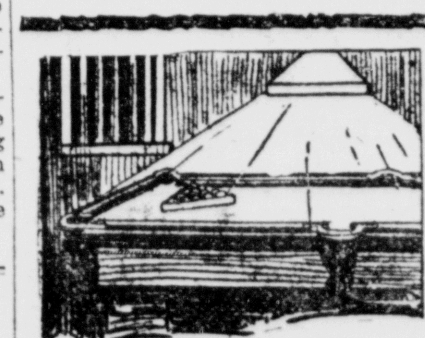

The department announces that it will be glad to hear from anyone who can furnish information of violations. The name of the informant will not be made public, it is announced.

ATHLETE GIVES BLOOD TO  
SAVE MAN UNKNOWN TO HIM

SUNBURY, Pa., Sept. 22.—Without knowing the man whose life he saved, Joseph Murphy, a star athlete and baseball player of this city, gave up a quart of his blood for John Malley, who is known to horsemen throughout the Eastern states.

Malley's wife had given up some of her blood in an effort to save her husband's life, but the amount was not enough and the doctors asked for more. In a conversation with friends Murphy learned of Malley's need. "I'll give mine," he said, and immediately proceeded to make good his promise. Malley is expected to recover.

Bucyrus—Citizens of Bucyrus will vote at the November election on the question of taking over the city water works. The expenditure, including improvements, will be about \$560,000.

The fast-going Cleveland Indians have four games remaining. On Wednesday they are scheduled to invade Detroit for two games, after which they will meet St. Louis at Cleveland in a two-game series.

NEW YORK, Sept. 22.—William H. (Big Bill) Edwards, internal revenue collector of the New York district, and once great Princeton football star, may be offered the championship of the National Baseball Commission to succeed Garry Hermann, according to a report in circulation here today.

Col. Jacob Ruppert, of the Yanks, has just returned from Chicago. He would neither verify nor deny that Edwards had been suggested by the joint major league committee. He said, however, that the committee had "an excellent man in mind."

ALBANY, N. Y., Sept. 22.—James B. "Cy" Seymour, once famous as a ball player, will be buried here today. Seymour died at his home in New York Saturday after an illness of several months. VETS TO OPEN  
NEXT SATURDAY

No new players will be accepted after this week for the Veterans of Foreign Wars team, is the statement Monday by Coach John Coleman, who declares that he will utilize the present material on hand in rounding out a representative grid squad for the season.

All vets and all men desiring to try out for places on the squad are requested to report at West End park Monday night.

Eighteen men will be picked this week for the opening game on Saturday. Either Toronto, Sebring or Monaca will be brought here as opponents for the Yanks.

FREIGHT CARS TUMBLE TO  
STREET FROM VIADUCT

SPRINGFIELD — Six huge freight cars tumbled over the Chicago & Alton viaduct here at Capitol avenue and Third street, a half block from the state house. They were being drawn in a long freight train when broken brake beams suddenly gave way and caused them to crash through guard rails on the viaduct to the street below, narrowly missing a street car, automobile and pedestrians who were passing at the time. Considerable damage was done to nearby property, but no one was injured. It took wreckers an entire day to clear the debris.

Simple Home Remedy  
Advised For Rose  
And Hay Fever

Anyone Can Make a Pint For Trifling Sum and Used In Time May Prevent Annual Attack

"No matter how severe your yearly attack how distressing or humiliating—its intensity can be reduced to a harmless, mildness,"

says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visit failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Pour one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in one ounce vials is dispensed by all the better pharmacies.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENEBO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENEBO. It's a most delightful and refreshing tooth paste.

TAGGING THE BASES

A home run by Pratt proved the winning tally for the Yankees and enabled them to oust the Tigers from third place.

In a game that consumed but 55 minutes in the playing, Brooklyn beat St. Louis.

Alexander shut out the Braves with six hits.

The Cleveland Indians refuse to be counted out. They went into the ninth inning trailing the Senators and staged a rally that netted five runs.

OPEN TO COUNT  
OF TREASON

Answer Made to Wilson  
Speech at Des  
Moines.

WASHINGTON, Sept. 22.—That the President laid himself open to a charge of treason when he declared in his Des Moines speech that the league of nations is "greater than the government" is the opinion of the Republican Publicity association. In the following statement given out today through its president, Hon. Jonathan Bourne, Jr., the association asserts that "impeachment is the only answer."

"All press reports agree in quoting President Wilson, in his league of nations speech at Des Moines as saying that the cause for which he is fighting is greater than the senate. It is greater than the government. It is greater than the government," it is stated.

"If any ordinary private citizen, bearing no special obligation to support and uphold the government of the United States, should embark in a political undertaking of an international character and announce it as 'greater than the government,' it would be the duty of the Attorney General of the United States to have him prosecuted for sedition if not for treason.

"Because of the special trust reposed in him as the chief executive of the government, and because of his oath of office, the president is charged in a peculiar manner with the duty of upholding the government. When the president himself takes the liberty to enter upon political undertakings 'greater than the government,' how can he or his department of justice condemn any other man or men for similar acts? By what line of distinction shall it be determined that one man is guilty and another innocent when both set up causes either outside or inside our domain which they declare to be greater than the government?

"If the cause for which Mr. Wilson pleads be greater than the government, and Mr. Wilson be sincere and earnest in his convictions, it will be his duty in loyalty to his conscience, to abandon this government if he cannot secure through it the success of his cause. Deep-dyed villain, indeed, would be a man who deserted a cause so dear to his heart that he would declare it greater than the government which for more than half a century had protected him in life, liberty and the pursuit of happiness, and which had conferred upon him the highest honors it can accord. If Mr. Wilson deserts a cause so great, he convicts himself of being what he has himself designated a contemptible quitter. If he adheres to a cause greater than the government, he has no proper place in the highest executive office, at the head of the army any navy, and with power to appoint not merely administrative officers but the highest judicial officers as well.

"Impeachment is the only answer."

Dayton—With Gov. James M. Cox scheduled for an address, the first reunion of the veterans of all wars is being held here at McCabe park today. Civil war veterans wore blue ribbons, Spanish-American war vets wore red ones and the boys of the world war wore white ribbons.

Dayton—When Dayton's night school opened, the enrolled were 348 employees of the Ohmer Fare Register company, who will take up the different courses.

MAY IMPROVE  
RIVER ROAD

If sufficient funds are found available, some steps toward the improvement of at least a section of the River road will likely be taken by city council when the matter is brought up at a caucus session preceding Monday night's regular council session, it was intimated Monday morning.

The River road, the only outlet for several comparatively large potteries along the Ohio river shore, is in a deplorable condition nine months in the year, city council has been told. Many of the potteries using the thoroughfare have offered to pay \$7,500 toward defraying the expenses incurred in permanently improving the road. If the road is improved along its entire length, it will cost approximately \$50,000, it has been stated.

If petitions now being circulated under auspices of the Chamber of Commerce seeking sentiment of the people on the proposed hotel on the city site are freely signed the measure will be submitted to city council Monday night.

DEPOSIT STONE  
AT DAM NO. 9

The United States engineer craft T. P. Roberts of Pittsburg passed here Saturday en route to New Cumberland, W. Va., where it will deposit a large of large stone at the mouth of the bear trap at lock No. 9 near New Cumberland. The force of the water at that point when the trap is lowered has washed out the river bed, lockmen here explained.

That the Ohio river is fast becoming an important link in the automobile industry is attested by the huge quantity of gasoline transported from

### LIEUT. VEIL TO WED COUNTESS

East Palestine Man Will Go to

Nice, Italy, to Claim Bride.

Falling in love with a French countess while recuperating from injuries sustained in an airplane fall, Lieut. C. H. Veil of East Palestine will return to Nice, Italy, within two weeks to wed Countess De Fradel. Veil was honorably discharged from the service last week at Camp Sherman, Chillicothe.

Lieut. Veil went to France in 1917 and enlisted as a private in the Foreign Legion of the French army. He was promoted to the rank of sous-lieutenant before the end of the year and later became a member of the Lafayette Escadrille.

Veil's machine was shot down by a German plane while maneuvering near Compeigne. Although he escaped death in the fall he was seriously injured. It was while convalescing at a hospital in Nice that he met the countess.

Veil plans to take his bride to Russia following their marriage in Nice.

"Will you change your citizenship?" he was asked. "Not so you could notice it," he replied.

THE BANNER EVENT OF THE YEAR

Because we have solved more difficult problems for this event than for any similar occasion during our thirty-nine years of business in East Liverpool.

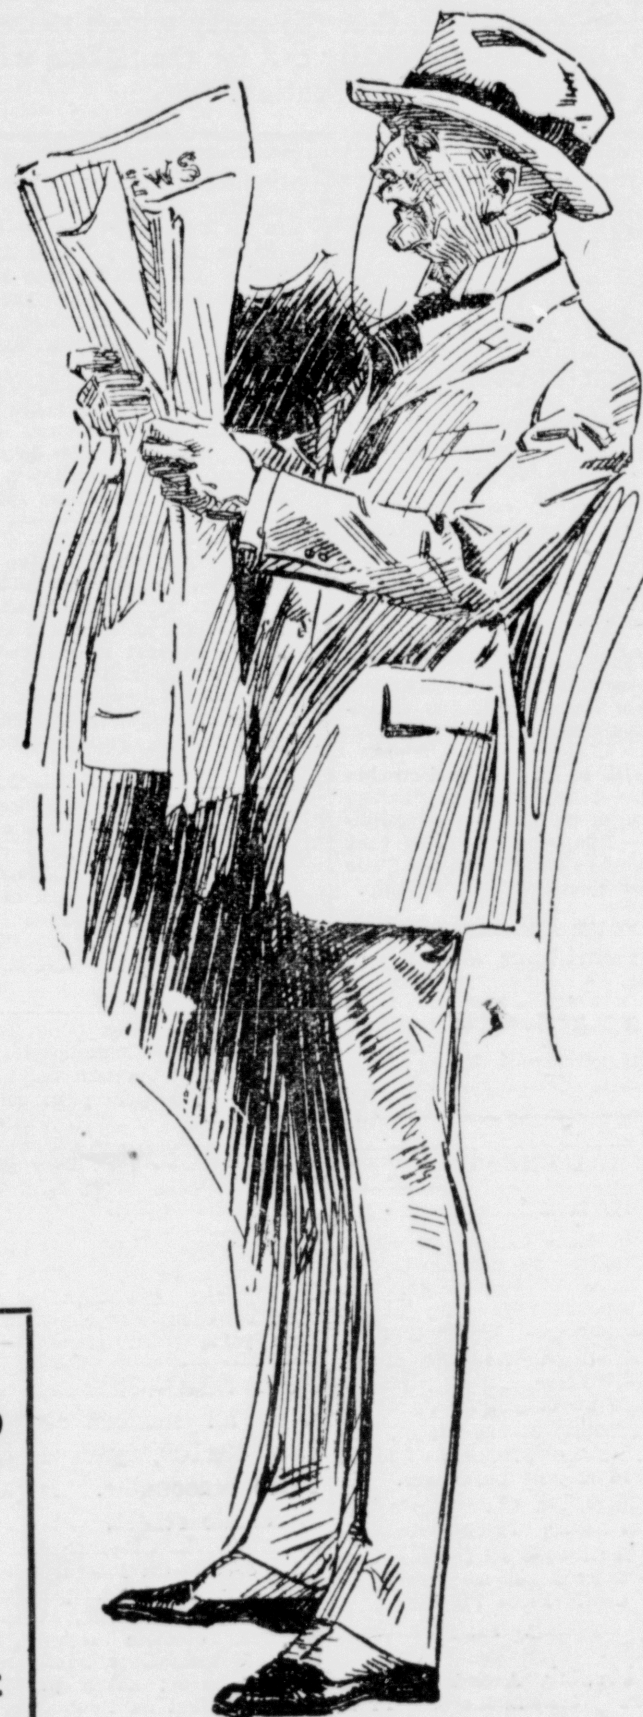

There is no use denying that merchandise is extremely costly, that prices are still advancing and that regardless of price, quantities are limited.

The consumer may not know this, but it is an absolute fact that if we order one hundred of an article the maker will tell us that if we are good he will ship us twenty, and that we can then put an order in for the remainder, conditionally that the manufacturer can ship when he pleases, and at whatever price he demands on the day of shipment.

That's the real condition, which we however fortunately anticipated. Do you know what we

mean by "ANTICIPATED"? We mean that we bought ahead, on an advancing market, believing that the merchandise would advance still more, and the scarcity increase, and we guessed alight.

And now we are not going to speculate in the merchandise, we are not going to hold it until the people are educated to the high prices, but we are going to sell it with our usual small margin of profit, thus demonstrating what we have so often said, that we are the agents of the people, that we represent those who have built up this business by their patronage and confidence. And that's why this is positively the greatest event of its kind in our career, because conditions considered, there will be a display of under-selling such as no other store in the United States can possibly surpass.

### Boys' Two-Pants Suits

Specially Priced for the Occasion.

Though a suit with an extra pair of pants cost a little more, yet we consider it most economical, because a coat will generally out wear two pair of trousers, and thus these suits will give the service that two suits are expected to give, and especially at the prices quoted for Tuesday and Wednesday are wonderful values—matchless values—as you will realize upon inspection and comparison.
